Academic Policies Related to Scheduling & Course Selection

1. Advanced Diploma candidates should consider taking their “additional core” class as a third year of Foreign Language to fulfill admission requirements at some colleges. Core classes are considered to be Math, English, Science, Social Science and Foreign Language.
2. Students may receive one full PE credit through participation in two seasons of an OSAA-sanctioned sports teams at Westside or at your public school. Students will receive a grade of P, rather than A through F for this credit. Students do not have to earn the entire credit in the same school year. If a student takes a regular PE class in the future, the credit earned through sports participation will be removed from their transcript.
3. Students may take one credit in an online or correspondence format during their enrollment at Westside. There is not a limit on the number of classroom or “instructional” classes a student may take outside of Westside and transfer in to us.
4. Students may be an office or teacher’s aide as many times as they desire, but will only receive credit for the first 2 semesters of this class (up to 1 credit).
